(With comparative figures as at and for the six months ended June 30, 2018)

(In the Notes, all amounts are shown in Philippine Peso, unless otherwise indicated)

Note 1 - Corporate information

Keppel Philippines Properties, Inc. ("Parent Company") was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on February 7, 1918 primarily to invest or acquire interest in, purchase, own or hold, directly or indirectly, shares of stocks and to undertake in property development activities through its associates and joint venture. The Parent Company's corporate life was extended for another fifty (50) years starting February 7, 1968. On June 11, 2016, the shareholders approved the amendment of the Parent Company's Articles of Incorporation to further extend its corporate life for another 50 years starting February 6, 2018. The extension of the term of the Parent Company's existence was approved by the Philippine SEC on May 5, 2017.

The Parent Company is listed in the Philippine Stock Exchange (PSE) through initial public offering (IPO) in 1989. There was no further follow on offering after the IPO. Its immediate parent company is Keppel Land Limited (KLL) and the ultimate parent company is Keppel Corporation Limited (KCL), both incorporated in Singapore. KCL is listed in the Singapore Exchange.

As at June 30, 2019 and December 31, 2018, the top five shareholders of the Parent Company are the following:

			1,150,838,147	1,185,757,851

The associates and joint venture were accounted for using the equity method. There were no dividends received from the associates and joint venture in 2019 and 2018. As at June 30, 2019 and December 31, 2018, there were no quoted prices for these investments.

BHSI is involved in the construction of residential condominium project which had been completed in 2003. BHSI's primary activity in 2019 and 2018 involved the sale of these condominium units. As at June 30, 2019, only three (3) units remain unsold. The primary purpose of the Group's other associates is to acquire by purchase, lease, and to own, use, improve, develop, subdivide, sell, mortgage, exchange, lease, develop and hold for investment or otherwise, real estate of all kinds.

SMKL's primary business activity is to operate and maintain office and shopping center spaces for rent, carpark and cinema. SMKL is involved in a mixed-use development comprising of retail spaces in "The Podium Mall" and office spaces in "The Podium West Tower" that is located in Ortigas Center, Mandaluyong

City. The Podium Mall consist of a five-level retail mall with an approximate gross leasable area of 46,000 sqm and a six-level basement carpark with a gross leasable area of 75,300 sqm. The construction of The Podium West Tower, with an approximate gross leasable area of 100,100 sqm, started in 2014 and is expected to be completed in the third quarter of 2019.

The Group has preferred equity securities pertaining to investments in redeemable preferred shares of OVI and OKEP, totalling to P79.3 million, which were acquired in 2012 at ten pesos (P10) per share. These investments are classified as financial assets at fair value through other comprehensive income as the characteristics of the investment do not affect the significant influence of the Group over OVI and OKEP. In addition, these investments are carried at cost less impairment as they do not have a quoted market price in an active market and their fair values cannot be reliably measured.

The features and conditions of the redeemable preferred shares are as follows:

- Non-voting, except for the cases provided for under Section 6, Paragraph 6 of the Corporation Code of the Philippines.
- Entitled to preference in the distribution of dividends. After payment of such preferred dividends, the holders of such preferred shares shall be entitled to participate pro rata with holders of common shares in the remaining profits.
- Redeemable at the option of the issuer, in full or in part, within a period of ten (10) years from date of issuance, at a price to be determined by the Board of Directors (BOD).
- If not redeemed within the period of ten (10) years, the holder shall have the option to:
 - (a) Convert the preferred shares to participating preferred shares; or
 - (b) Hold the redeemable preferred shares for another five (5) years, after which the holder can choose to convert to either common shares or participating preferred shares.

The cost of fully depreciated property and equipment still in use in operations amounted to P4.0 million as at June 30, 2019 (2018 – P4.0 million).

Note to Statement of Cash Flows

Non-cash investing activity for the six months ended June 30, 2019 pertain to the outstanding balance amounting to P5.4 million from the acquisition of property and equipment.

Note 4 – Right-of-use asset and lease liability

In May 2019, the Parent Company entered into an operating lease agreement with SM Keppel Land, Inc. for its office space located in The Podium West Tower. The lease term covers a period of three years and renewable subject to terms and conditions to be mutually agreed upon by both parties. The lease is accounted for under PFRS 16 which is effective January 01, 2019.

Details and movement of right-of-use asset as at June 30 are as follows:

	Notes	Office premises
Cost		
Adoption of PFRS at January 1, 2019		14,362,187
Less: Amortization	5	797,899
Net carrying amount at June 30, 2019		13,564,288

Lease liability as at June 30, 2019 consist of:

	2019
Current portion	4,261,061
Non-current portion	9,429,443
	13,690,504

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis

Total payments to the lease obligation for the six months ended June 30, 2019 amounted to Po.9 million.

Total interest expense charged to profit or loss related to the lease obligation for the six months ended June 30, 2019 amounted to Po.2 million.

Note 5 - Related party disclosures

		(60,548,925)		(57,989,202)	

- (a) The Group made operating advances for expenses incurred by associates and joint venture during the second quarter of 2019 and 2018. These operating advances represents expenses incurred in the normal operations paid on behalf of the Group's associates and joint venture.
- (b) The Group provides management, advisory and consultancy services to SMKL. The amount of management fee charged by the Group to SMKL amounted to P2.9 million in the second quarter of 2019 (2018 - P1.9 million). The amount of franchise fee charged amounted to P1.1 million in the second quarter of 2019 (2018 - P0.8 million). Management fee and franchise fee is charged at 2.5% and 1.0%, respectively, of annual net revenues of SMKL.
- (c) On December 22, 2011, the BOD of BHSI approved BHSI's plan to decrease its authorized share capital. In relation to this and pending the SEC's approval of such plan, BHSI made partial advance return of the investments to its shareholders which include BHI and OKEP of 59.7 million and P40.3 million, respectively. The P40.3 million was received by the Group on behalf of OKEP. In 2014, the Group received additional advances of P24.0 million from BHSI, thereby increasing the Group's liabilities to BHSI to P83.7 million as at December 31, 2016.

On September 15, 2017, the SEC approved the amendments of BHSI's Articles of Incorporation and By-laws which include the decrease in its authorized, and issued and outstanding share capital, thereby

decreasing BHSI's share capital. As a result, the Group's investment in BHSI decreased by P123.1 million. The settlement of return of investment consists of offsetting of prior year advances from BHSI amounting to P83.7 million, as discussed above, and cash proceeds of P14.5 million resulting to unpaid balance amounting to P24.9 million as at December 31, 2017.

The Group collected P0.3 million from BHSI in 2018, thereby decreasing the outstanding balance to P24.6 million as at December 31, 2018. There was no collection in the second quarter of 2019.

- (d) In 2018, the Group charged KLL, its immediate parent company, for the amount paid on behalf of KLL for legal fees amounting to P0.2 million. This was fully collected in 2018.
- (e) In 2018, the Group charged Molten Pte Ltd (MPL) for professional fees amounting to P0.1 million related to the transfer of the Group's shares from a retired management personnel to MPL. This was fully collected in 2018.
- (f) In 2017, the Group charged Wiseland Investment Myanmar Ltd (WIML), an entity under common control, an amount representing the employee benefits for the period in service to WIML prior to the transfer of a management personnel to the Group. This was fully collected in 2019.
- (g) Keppel Land International Limited (KLIL), Keppel Land (Regional Investments), Ltd. (KL(RI)) and Keppel Land International (Management), Ltd. (KLI(M)), entities under common control, provides support services to the Group. Operating advances for expenses incurred by the Group from these entities amounted to P0.1 million for the period ended June 30, 2019 (2018 – P0.3 million). These are recharged at cost.
- (h) Straits Mansfield Property Marketing Pte Ltd (SMPM), an entity under common control, provides consultancy, advisory and support services to the Group and SMKL. Consultancy fees charged by SMPM, which is based on the time spent by SMPM personnel in rendering services to the Group, amounted to P0.9 million in the second quarter of 2019, (2018 – P1.4 million). Outstanding payables to SMPM related to the consultancy fees amounted to P20.2 million and P17.7 million as at June 30, 2019 and December 31, 2018, respectively.
- (i) Transactions related to key management personnel of the Group for the six months ended June 30, 2019 and 2018 are as follows:

	2019	2018
Salaries and other short-term employee benefits	9,185,475	8,552,333

Note 7 - Earnings (loss) per share

Earnings (loss) per share for the six months ended June 30, 2019 and 2018 are as follows:

	2019	2018
Net loss	51,676,885	46,368,058
Divided by: Weighted average number of shares outstanding	293,828,900	293,828,900
Basic loss per share	0.18	0.16

The Group has no potential shares that will have a dilutive effect on loss per share.

The weighted average number of shares outstanding as at June 30, 2019 and 2018 is computed as follows:

Issued shares	296,629,900
Treasury shares	(2,801,000)
Weighted average number of shares outstanding	293,828,900

Note 8 - Other reserves

Other reserves pertain to items of other comprehensive income that will not be reclassified to profit or loss. These include actuarial gain on defined benefit plan, net of tax, amounting to P0.7 million as at June 30, 2019 and December 31, 2018, and share in actuarial gain of an associate and a joint venture amounting to P0.3 million as at June 30, 2019 and December 31, 2018 (Notes 2 and 9).

Note 9 - Retirement benefits

The Group has a funded, non-contributory defined benefit retirement plan, administered by BDO Unibank, Inc.-Trust and Investment Group (Trustee), covering its regular employees. The Group is under the KPPI Multi-employer Retirement Plan. The Parent Company, together with the companies under the plan, contributes to the trust fund amounts as may be required as estimated by an independent actuary, on the basic accepted actuarial principles, to maintain the plan in a sound condition. The companies also reserve the right, whenever economic conditions may warrant, to discontinue or suspend its contributions to the trust fund. Further, the Parent Company is not liable to the plan for other companies' obligations under the terms and conditions of the multi-employer plan. In case of termination of the plan, the liability of the companies to make contributions shall cease and the trust fund shall be allocated pro-rata to the employees.

Republic Act 7641, The New Retirement Law, requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity. The law does not require minimum funding of the plan. The latest actuarial valuation date of the Group's retirement plan is as at December 31, 2018.

The net retirement benefit asset recognized in the interim consolidated statements of financial position as at June 30, 2019 and December 31, 2018 is determined as follows:

Fair value of plan assets	2,240,514
Present value of defined benefit obligation	(2,002,423)
	<u>238,091</u>

The Group's net retirement benefit asset reflected in the interim consolidated financial statements represents the Parent Company's retirement plan since the impact of BHSI and SMKL's retirement plans are reflected as part of "Share on actuarial gain (loss) of an associate and a joint venture".

Changes in the net retirement benefit asset recognized in the interim consolidated statements of financial position for the year ended December 31, 2018 are as follows:

At January 1	58,823
Retirement expense recognized in profit or loss	(521,220)
Transfer of employees from an associate	(375,670)
Remeasurements recognized in other comprehensive income	
Changes in financial assumptions	265,067
Deviations of experience from assumptions	490,564
Loss on plan assets	(121,783)
Contributions to the retirement fund	442,310
At December 31	<u>238,091</u>

The components of retirement benefit expense and net interest expense recognized in profit or loss for the year ended December 31, 2018 are as follows:

Current service cost presented as retirement expense	504,142
Net interest expense	17,078
	<u>521,220</u>

The remeasurements recognized in other comprehensive income for the year ended December 31, 2018 are determined as follows:

Remeasurements on defined benefit obligation	755,631
Remeasurements on plan assets	(121,783)
Remeasurements gain	633,848
Deferred income tax benefit	(190,154)
Remeasurements gain, net of tax	443,694

(a) *Defined benefit obligation*

Changes in the present value of the defined benefit obligation for the year ended December 31, 2018 are as follows:

At January 1	1,762,969
Current service cost included in retirement expense	504,142
Interest cost included in retirement expense	115,273
Transfer of employees from an associate	375,670
Remeasurements in other comprehensive income:	
Actuarial gain on obligation resulting from:	
Changes in financial assumptions	(265,067)
Deviations of experience from assumptions	(490,564)
At December 31	2,002,423

As at December 31, 2018, the average duration of the defined benefit obligation is 21 years.

Below is the maturity analysis of the undiscounted benefit payments as at December 31, 2018:

Less than 10 years	1,303,486
More than 10 years to 15 years	1,023,143
More than 15 years to 20 years	6,756,334
More than 20 years	36,977,046
	46,060,009

(b) *Plan assets*

The major categories of plan assets as at December 31, 2018 are as follows:

Cash	976,265
Government securities	1,237,213
Investment in unit investments in trust funds (UITF)	17,804
Receivables	11,510
Trust fee payable	(2,278)
	2,240,514

The funds are administered by a trustee bank under the supervision of the Board of Trustees (BOT) of the plan which delegates the implementation of the investment policy to the trustee. These funds are subject to the investment objectives and guidelines established by the trustee and rules and regulations issued by Bangko Sentral ng Pilipinas covering assets under trust and fiduciary agreements. The trustee is responsible for the investment strategy of the plan.

Investments in government securities and UITF held have quoted prices in active markets. The plan assets have diverse investments and do not have any concentration risk.

The asset allocation of the plan is set and reviewed from time to time by the BOT taking into account the membership profile and liquidity requirements of the plan. This also considers the expected benefit cash flows to be matched with asset durations.

Changes in the fair value of plan assets for the year ended December 31, 2018 are as follows:

At January 1	1,821,792
Interest income presented as net of retirement expense	98,195
Remeasurement in other comprehensive income:	
Loss on plan assets	(121,783)
Contributions to the retirement fund	442,310
At December 31	2,240,514

There are no plan assets invested in any entity within the Group as at and for the year ended December 31, 2018. The Group's transactions with the retirement fund for 2018 is limited to contributions. The fair value of the plan assets approximates their carrying amount as at December 31, 2018.

The Group's annual contribution to the fund consists principally of payments which covers the current service cost for the year and the required funding relative to the guaranteed minimum benefits as applicable. The Group expects to contribute P0.4 million to the retirement fund in 2019.

There was no plan amendment, curtailment, or settlement for the years ended December 31, 2018.

Actuarial assumptions

The principal assumptions used in determining the Group's retirement obligation as at December 31, 2018 are shown below:

Discount rate	8.93%
Future salary increase rate	5.00%

In determining the appropriate discount rate, the independent actuary considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. Future salary increases are based on expected future inflation rates for the specific country. The mortality rate is based on publicly available mortality tables for the specific country and is modified accordingly with estimates of mortality improvements.

The sensitivity analyses below have been determined based on reasonably possible changes of each significant assumption on the retirement obligation as at December 31, 2018:

	Rates	Increase (Decrease)
Discount rate	+1.0%	(40,316)
	-1.0%	51,081
Salary increase rate	+1.0%	51,567
	-1.0%	(41,310)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the retirement obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement benefit asset recognized in the interim consolidated statement of financial position.

Note 10 - Segment information

The Group has only one segment as it derives its revenues primarily from management consultancy services rendered to its associates.

Significant information on the reportable segment as at June 30, 2019 and December 31, 2018 are as follows:

	2019	2018
Operating assets	1,509,629,528	1,531,636,972
Operating liabilities	110,776,149	81,106,708
Revenue and income (loss)	(24,706,302)	(22,598,752)
Other income (expense), net	(55,662)	(158,471)
General and administrative expenses	(25,357,542)	(23,281,129)
Segment net loss	(51,676,885)	(46,368,058)

All revenues are from domestic entities incorporated in the Philippines, hence, the Group did not present geographical information required by PFRS 8, *Operating Segments*.

There are no revenues derived from a single external customer above 10% of total revenue.

There is no need to present reconciliation since the Group's operating assets, operating liabilities, revenue, cost and expenses and segment net loss as it pertains to a single operating segment.

Note 11 - Financial risk and capital management

11.1 Financial risk management

The Group's principal financial assets and financial liabilities comprise cash and cash equivalents, financial assets at fair value through other comprehensive income (FVOCI), amounts due to and from related parties and refundable deposits. The Group has various other financial assets and financial liabilities such as receivables and payables and other current liabilities, which arise from its operations.

The main risks arising from the Group's financial instruments are market risk (mainly foreign currency risk), credit risk, and liquidity risk. The Group's BOD and management review and agree on the policies for managing each of these risks as summarized below:

(a) Foreign currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rate. The Group's exposure to foreign currency arises from SG-dollar denominated cash on hand and consultancy fees due to SMPM.

The Group's foreign currency-denominated monetary assets and liabilities as at June 30, 2019 and December 31, 2018 are as follows:

	2019	2018
Cash and cash equivalents	500	500
Due to related parties	(523,244)	(456,704)
Net assets (liabilities)	(522,744)	(456,204)
Exchange rates	37.96	38.47
PHP equivalent	(19,843,362)	(17,550,168)

The Group manages its foreign currency exposure risk by matching receipts and payments in each individual currency. Foreign currency is converted into relevant domestic currency as and when the management deems necessary.

The following table demonstrates the sensitivity to a reasonably possible change in the Philippine Peso exchange rate, with all other variables held constant, of the Group's loss before tax. There is no impact on the Group's equity other than those already affecting the net loss.

	Currency	Change in variable	Effect on income before tax increase (decrease)
June 30, 2019	SGD	+1.33%	(263,065)
		-1.33%	263,065
December 31, 2018	SGD	+3.08%	(540,545)
		-3.08%	540,545

In 2019 and 2018, the Group used the average change in the quarterly closing rates for the year in determining the reasonable possible change in foreign exchange rates.

(b) Credit risk

Credit risk arises when the counterparty to a financial asset of the Group is unable to fulfill its obligation at the time the obligation becomes due. Credit risk arises from the Group's financial assets, which comprise cash and cash equivalents, receivables, amounts due from related parties and refundable deposits.

As at June 30, 2019 and December 31, 2018, the carrying values of the Group's financial instruments represent maximum exposure to credit risk at reporting date.

There were no amounts that are offset in accordance with the entities in PAS 32, *Financial Instruments: Presentation*. There were no amounts subject to an enforceable master netting arrangement or similar agreement as at June 30, 2019 and December 31, 2018.

The Group transacts mostly with related parties, thus, there is no requirement for collateral. There are no significant concentrations of credit risk within the Group. The Group's due from related parties are approximately 99% of total receivables as at June 30, 2019 and December 31, 2018.

The credit quality per class of financial assets at amortized cost are as follows:

	Neither past due nor impaired	Impaired	Total
<i>June 30, 2019</i>			
Cash and cash equivalents*	142,018,894	-	142,018,894
Receivables**	1,629,387	2,666,664	4,296,051
Due from related parties	74,179,321	-	74,179,321
Refundable deposits	1,358,623	-	1,358,623
	219,186,225	2,666,664	221,852,889
<i>December 31, 2018</i>			
Cash and cash equivalents*	137,966,967	-	137,966,967
Receivables**	1,394,693	2,666,664	4,061,357
Due from related parties	99,841,251	-	99,841,251
Refundable deposits	72,300	-	72,300
	239,275,211	2,666,664	241,941,875

*Cash and cash equivalents exclude cash on hand.

**Receivables exclude amounts due from employees.

The Group has policies that limit the amount of credit exposure with financial institutions. The Group also maintains its deposits with reputable banks and financial institutions. For banks and financial institutions, only independently rated parties with good, if not the highest credit ratings, are accepted such as universal and commercial banks as defined by the Philippine Banking System. All cash in banks of the Group are with universal banks as at June 30, 2019 and December 31, 2018.

The Group's receivable amounting to P2.7 million as at June 30, 2019 and December 31, 2018 is determined to be impaired and was provided with allowance for doubtful accounts in 2017.

(i) *Cash in bank*

The Group has maintained business relationships with an accredited universal bank that has high credit standing in the financial services industry.

The remaining cash in the interim consolidated statements of financial position pertains to cash on hand which is not subject to credit risk.

(ii) *Receivables*

Receivables from related parties

Credit exposure of the Group on receivables from related parties is considered to be low as these parties have no history of default and have a strong credit history. Additionally, credit risk is minimized since the related parties are paying on normal credit terms based on contracts.

The maximum credit risk exposure is equal to the carrying amount as at June 30, 2019 and December 31, 2018.

Receivables from third parties

The credit quality of receivables that are neither past due nor impaired can be assessed by reference to historical information about counterparty default rates.

As at June 30, 2019, the Group's receivable amounting to P2.7 million is determined to be impaired and was provided with allowance for doubtful accounts in 2017.

(c) *Liquidity risk*

Liquidity risk is the risk that the entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and short-term deposits. The Group also monitors its risk to shortage of funds through monthly evaluation of the projected and actual cash flow information.

The table below summarizes the maturity profile of the Group's non-derivative financial liabilities based on contractual undiscounted payments:

	On demand	Less than 3 months	Total
June 30, 2019			
Accounts payable and other current liabilities*	553,981	24,866,840	25,420,821
Due to related parties	59,277,321	1,271,604	60,548,925
	59,831,302	26,138,444	85,969,746
December 31, 2018			
Accounts payable and other current liabilities*	553,981	12,770,746	13,324,727
Due to related parties	52,234,206	5,754,996	57,989,202
	52,788,187	18,525,742	71,313,929

* *Accounts payable and other current liabilities exclude taxes payable.*

11.2 Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions.

The Group monitors capital using percentage of debt to equity, which is total liabilities divided by total equity net of treasury shares. The Group's policy is to maintain the percentage of debt to equity ratio

below 100%. The Group includes, within total debt, accounts payable and other current liabilities and amounts due to related parties.

The Group's objective is to ensure that there are no known events that may trigger direct or contingent financial obligation that is material to the Group, including default or acceleration of an obligation.

There are no changes in the Group's objectives, policies and processes for managing capital from the previous period.

The percentages of debt to equity as at June 30, 2019 and December 31, 2018 are as follows:

	2019	2018
Liabilities	110,776,149	81,106,708
Equity	1,398,853,379	1,450,530,264
Percentage of debt to equity	7.92%	5.59%

As part of the reforms of the Philippine Stock Exchange (PSE) to expand capital market and improve transparency among listed firms, the PSE requires listed entities to maintain a minimum of ten percent (10%) of their issued and outstanding shares, exclusive of any treasury shares, held by the public. The Group has fully complied with this requirement.

11.3 Fair value of assets and liabilities

Due to the short-term nature of the Group's financial instruments, their fair values approximate their carrying amounts as at June 30, 2019 and December 31, 2018, except for financial assets at FVOCI.

The financial assets pertaining to investment in preferred equity shares and unquoted club shares are valued at FVOCI. The management has assessed that the cost less any impairment, if any, is the best estimate for fair value because these do not have a quoted market price in an active market and fair value cannot be measured reliably.

Fair value hierarchy

During the reporting period ended June 30, 2019 and December 31, 2018, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurement.

Note 12 - Basis of Preparation and Statement of Compliance

12.1 Basis of preparation

The interim consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards ("PFRS"). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards ("PAS"), and interpretations of the Philippine Interpretations Committee ("PIC"), Standing Interpretations Committee ("SIC") and International Financial Reporting Interpretations Committee ("IFRIC") which have been approved by the Financial Reporting Standards Council ("FRSC") and adopted by the SEC.

The interim consolidated financial statements have been prepared under the historical cost convention, except for the financial assets at FVOCI and retirement benefit asset, recognized as the net of the fair value of plan assets and the present value of defined benefit obligation.

Changes in accounting policy and disclosures

Amendments and improvements to existing standards and interpretations adopted by the Group

The Group has applied the following standard for the first time for its interim reporting period ended June 30, 2019:

- *PFRS 16, Leases* (effective January 1, 2019). The standard affects primarily the accounting by lessees and will result in the recognition of almost all leases on balance sheet. The standard removes the current distinction between operating and financing leases and requires recognition of an asset (the right to use the leased item) and a financial liability to pay rentals for virtually all lease contracts. An optional exemption exists for short-term and low-value leases.

The Group has adopted the modified retrospective method, with no restatement in the comparative information.

On adoption of PFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of PAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of date of adoption. The weighted average lessee's incremental borrowing rate applied to the lease liabilities was 7.80%.

No other standards, amendments or interpretations that are effective beginning January 1, 2018 are expected to have a material impact on the Company.

12.2 Consolidation

The interim consolidated financial statements include the accounts of the Parent Company and its subsidiaries as at June 30, 2019 and December 31, 2018 and for each of the period ended. Subsidiaries are all entities over which the Group has control. Subsidiaries are fully consolidated from the date of acquisition or incorporation, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

The financial statements of the subsidiaries are prepared for the same reporting period and year as the Parent Company, using consistent accounting policies. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Parent Company's accounting policies.

Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the Parent Company since the subsidiaries are wholly-owned by the Parent Company. All intra-group balances, transactions and unrealized gains and losses resulting from intra-group transactions are eliminated in full.

Assessment of control

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee;
- Exposure, or rights, to variable returns from involvement with the investee; and
- The ability to use power over the investee to affect the amount of the investor's returns

The Group re-assesses whether or not it controls the investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

12.3 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Group recognizes a financial instrument in the statement of financial position, when, and only when, it becomes a party to the contractual provisions of the instrument.

Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories: fair value through profit or loss (FVPL), fair value through other comprehensive income (FVOCI) and amortized cost. The Group did not hold financial assets under the category financial assets at FVPL as at June 30, 2019 and December 31, 2018.

(i) Amortized cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other gains/losses together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of total comprehensive income.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. The Group's financial assets measured at amortized cost comprise cash and cash equivalents, receivables, due from related parties and refundable deposits in the statement of financial position.

(ii) Fair value through other comprehensive income

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI). The Group's financial assets measured at FVOCI represent unquoted preferred shares of related parties and unquoted investments in club shares. These are classified in the statement of financial position.

(b) Recognition and measurement

(i) Initial recognition and measurement

Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset.

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

(ii) Subsequent measurement

Loans and receivables and other financial liabilities are carried at amortized cost using the effective interest method.

Equity investments

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Group's right to receive payments is established.

(c) Impairment

For trade receivables and due from related parties, the Group applies the simplified approach permitted by PFRS 9, which requires expected lifetime losses to be recognized from initial recognition of the trade receivables.

Equity investments

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. For equity investments, a significant or prolonged decline in the fair value of security below its cost is also evidence that the assets are impaired.

If any such evidence exists the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss - is removed from equity and recognized in profit or loss. Impairment losses recognized in the profit or loss on equity instruments are not reversed through profit or loss.

(d) Derecognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Financial liabilities

(a) Classification

The classification and measurement of financial liabilities under PFRS 9 remains the same as in PAS 39 except where an entity has chosen to measure a financial liability at fair value through profit or loss. For such liabilities, changes in fair value related to changes in own credit risk are presented separately in other comprehensive income. The Group did not measure its financial liabilities at fair value through profit or loss as at June 30, 2019 and December 31, 2018.

The Group classifies its financial liabilities in the following categories: financial liabilities at fair value through profit or loss (including financial liabilities held for trading and those that designated at fair value); and other financial liabilities. The Group's financial liabilities are limited to other financial liabilities at amortized cost.

Financial liabilities at amortized cost pertains to issued financial instruments that are not classified as at fair value through profit or loss and contain contract obligations to deliver cash or another financial asset to the holder or to settle the obligation other than the exchange of a fixed amount of cash. These are included in current liabilities, except for maturities greater than twelve (12) months after the reporting period which are classified as non-current liabilities.

The Group's trade and other payables (excluding payable to government agencies) and due to related parties are classified under other financial liabilities at amortized cost.

(b) Recognition and derecognition

Financial liabilities not carried at fair value through profit or loss are initially recognized at fair value plus transaction costs. Financial liabilities are derecognized when extinguished, i.e., when the obligation is discharged or is cancelled, expires, or paid.

(c) Measurement

Other financial liabilities are carried at amortized cost using the effective interest method.

(d) Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty. As at June 30, 2019 and December 31, 2018, there were no offsetting of financial assets and liabilities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FINANCIAL CONDITION

TOTAL ASSETS declined by ₱22.0 million from ₱1,531.6 million in 2018 to ₱1,509.6 million in 2019. The significant changes in account balances during the period are as follows:

- **CASH AND CASH EQUIVALENTS** increased by ₱4.1 million due to the net cash generated from operating activities mainly from collections of intercompany receivables and interest income received, offset by general administrative expenses incurred and payments for acquisitions of property and equipment.
- **DUE FROM RELATED PARTIES** decreased by ₱25.7 million due to partial collection of long outstanding intercompany receivables in 2019.
- **PREPAYMENTS AND OTHER CURRENT ASSETS** increased by ₱7.1 million due to deposits made for the fit-out of the Parent Company's new office, advances for rentals and input VAT on leasehold improvements.
- **INVESTMENTS IN ASSOCIATES AND JOINT VENTURE** decreased by ₱34.9 million due to the negative share in results of associated companies for the six months ended June 30, 2019.
- **PROPERTY AND EQUIPMENT, NET** increased by ₱12.6 million due to the leasehold improvements on the Parent Company's new office.
- **RIGHT-OF-USE ASSET** increased by ₱13.6 million due to the recognition of asset on the leased premises.
- **REFUNDABLE DEPOSITS** increased by ₱1.3 million due to the required deposits made for the new leased premises under PFRS 16.
- **DEFERRED INCOME TAX ASSETS, NET** decreased by ₱0.5 million due to reversal of accruals made in 2018.

TOTAL LIABILITIES increased by ₱29.7 million from ₱81.1 million in 2018 to ₱110.8 million in 2019 mainly due to the recognition of lease liability under PFRS 16, consultancy fees charged by SMPM for the six months ended June 2019 and payables to contractor for the fit-out of the Parent Company's new office.

TOTAL EQUITY decreased by ₱51.6 million from ₱1,450.5 million in 2018 to ₱1,398.9 million in 2019 due to the net loss incurred during the six months ended June 30, 2019.

RESULTS OF OPERATIONS

The Group holds investments in associates involved in property development. It derives its revenue from rendering management consultancy services to these associates.

SECOND QUARTER 2019 COMPARED TO SAME PERIOD IN 2018

TOTAL REVENUE AND INCOME (LOSS) registered a loss of ₱15.3 million in the second quarter of 2019, which is higher by ₱5.0 million than the ₱10.3 million loss incurred in the same period in 2018. This is mainly attributable to the following:

- Changes in **SHARE IN RESULTS OF ASSOCIATED COMPANIES** from period to period are dependent upon the results of the operations of the associated companies. The second quarter of 2019 showed a share in net loss of ₱20.7 million which is higher than the share in net loss of ₱13.9 million in the same quarter in 2018. The increase in net loss is attributable to the higher direct costs to operate SMKL's The Podium Mall.

- Increase in **MANAGEMENT CONSULTANCY AND FRANCHISE FEES** by ₱1.4 million or 52% to ₱4.1 million in the second quarter of 2019 from ₱2.7 million in the same period of 2018 is due to the increase in The Podium Mall's rental income on which these fees from SMKL are based.
- Increase in **INTEREST INCOME** by ₱0.5 million or 56% to ₱1.4 million in the second quarter of 2019 from ₱0.9 million in the same period of 2018 is due to higher interest rate on deposit placements.

GENERAL AND ADMINISTRATIVE EXPENSES increased by ₱2.9 million or 27.1% to ₱13.6 million in the second quarter of 2019 from ₱10.7 million in the same period of 2018 mainly due to depreciation on leasehold improvements and higher salaries and benefits related to investment and project management of the Group.

As a result, net loss for the **Second Quarter 2019** increased by ₱8.2 million to ₱29.4 million in 2019 from ₱21.2 million in 2018.
